Nappy and Toileting Policy

National Quality Standard (NQS)

Quality Area 2: Children's Health and Safety		
2.1	Health	Each child's health and physical activity is supported and promoted
2.1.1	Wellbeing and comfort	Each child's wellbeing and comfort is provided for, including appropriate opportunities to meet each child's needs for sleep, rest and relaxation
2.1.2	Health practices and procedures	Effective illness and injury management and hygiene practices are promoted and implemented.
2.1.3	Healthy Lifestyles	Healthy eating and physical activity are promoted and appropriate for each child
2.2	Safety	Each child is protected
2.2.1	Supervision	At all times, reasonable precautions and adequate supervision ensure children are protected from harm and hazard
2.2.2	Incident and emergency management	Plans to effectively manage incidents and emergencies are developed in consultation with relevant authorities, practised and implemented.
2.2.3	Child Protection	Management, educators and staff are aware of their roles and responsibilities to identify and respond to every child at risk of abuse or neglect.

Education and Care Services National Regulations

Children (Education and Care Services) National Law NSW	
103	Premises, furniture and equipment to be safe, clean and in good repair
105	Furniture, materials and equipment
106	Laundry and hygiene facilities
109	Toilet and hygiene facilities
115	Premises designed to facilitate supervision
156	Relationships in groups

Aim

Our Service aims to meet the needs of children by providing a clean, safe and hygienic place for nappy change and toileting. We believe that nappy changing and toileting rituals are valuable opportunities to promote children's learning, meet individual needs and to develop strong relationships with children. Having their needs met in a caring and responsive way builds children's sense of trust and security— which relates strongly to the Early Years Learning Framework

Implementation

Warradale Community Children's Centre accepts enrolments of children who have not yet been toilet trained. Nappy Change and Toileting transpires at designated routine times and when meeting children's individual needs. Educators will collaborate with parents to develop stability with their child's nappy change and toileting practices. Educators must be responsive to special requirements related to culture, religion or privacy needs.

Toileting and nappy changing will be carried out at frequent intervals throughout the day, children who are in nappies will have each nappy change recorded in the Nappy Change Chart by Educators. This is situated by the nappy change area for parents to check.

Having their needs met quickly and in a caring responsive way builds children's sense of trust and security. Children also benefit from having the pleasant sensory experience of being free of a nappy and the comfort of having a fresh, dry nappy. It is also important to

Warradale Community Children's Centre acknowledges the traditional custodians of the land we live on today and we pay our respects to the Aboriginal and Torrens Strait Islander People past, present and emerging.

remember that the way that Educators react to soiled or wet nappies, toileting needs, and accidents give children powerful messages about themselves and their bodies.

Meeting children's physical needs, nappy changing, and toileting are an imperative time for Educators to:

- Conduct one to one interactions with children, and to give them your full attention
- Build trusting and caring relationships with children
- Interact with children using verbal and non-verbal communication, and respond to children's communication
- Participate in age appropriate activities with children, such as singing, saying rhymes and doing finger plays
- Build children's understanding of what is happening by inviting them to the bathroom, supporting their capability to predict what will happen next in the routine
- Help children begin to develop and extend their self-help skills, which includes handwashing and dressing, and encouraging children to identify the feeling of accomplishment and gratification that come with this.

All Educators will carry out nappy changing, however at times if a student is required to carry out this as part of their practical requirements - they will be under constant the supervision of a qualified Educator. Should a parent be in the bathroom helping their child, a staff member must accompany any other children needing to use the bathroom at the same time.

Appropriate hygiene practices must be maintained, and procedures followed to minimise any risk of infection at all times. Educators will continuously promote healthy hygiene practices and hand washing procedures; encouraging the children to follow these practices.

The Management Committee will:

- Provide adequate and appropriate hygienic facilities for nappy changing

Warradale Community Children's Centre acknowledges the traditional custodians of the land we live on today and we pay our respects to the Aboriginal and Torrens Strait Islander People past, present and emerging.

- Ensure nappy change facilities are designed and located in a way that prevents unsupervised access by children which is compliant with National Regulations and Health and Safety Standards
- Ensure that adult and children's hand washing facilities are located within the nappy change area
- Consult the Building Code of Australia for requirements concerning nappy change benches (Centre-based services.)
- Ensure that the nappy change facilities are designed and maintained in a way that facilitates supervision of children at all times, having regard to the need to maintain the rights and dignity of the children
- Ensure nappy change bins have a 'hands-free' lid
- Ensure Nappy change procedure remains compliant and up to date.

The Director will:

- Implement policies, procedures and training with educators to ensure nappy change procedures that support children's safety, protection, relationships and learning.
- Develop systems with educators to ensure that soiled clothing and soiled nappies are disposed of or stored in a location that children cannot access.
- Ensure children's nappies are changed regularly throughout the day.
- Ensure Educators check nappies throughout the day to ensure children are not susceptible to nappy rash and discomfort. A system to record this routine will be maintained for reporting purposes which will be kept up to date.
- Ensure nappy change and hand washing procedures are displayed visually and in community languages as appropriate in the nappy change area.
- Ensure nappy bins are emptied once during the day and at the end of each day. This may need to be done more regularly if there are soiled nappies.

Educators will:

- Discuss children's individual needs professionally with families to ensure practices are reflective of their home environment and are culturally sensitive
- Provide information to families regarding children's nappy change outlines
- Give each child warning of imminent changes.
- Utilise nappy change times to interact with children on an individual basis. The nappy change time will allow educators to converse, sing, play and generally interact with the child. This time allows educators and children to learn more about each other and understand each child's personality and personal strengths

Warradale Community Children's Centre acknowledges the traditional custodians of the land we live on today and we pay our respects to the Aboriginal and Torrens Strait Islander People past, present and emerging.

- Organise the nappy change area to promote positive interactions and promote positive learning experiences, e.g. place pictures or mobiles to stimulate children's interactions and to encourage learning.
- Ensure physical contact and direct supervision with children throughout the nappy change experience
- Ensure no child is left alone on a nappy change mat or bench
- Always keep nappy change areas fully stocked with all required materials
- Nappy Change and Toileting supplies are readily accessible to staff to ensure efficiency and the health and safety of each child.
- Encourage mobile children to walk to the nappy change area.
- Assist the child to walk up the steps onto the nappy change bench to decrease monotonous movements by educators and to promote children's agency. Where a child is not walking, educators will follow manual handling practices to lift and carry the child to the nappy change mat.
- Follow service's documentation requirements for nappy changing and toileting
- Ensure the dignity and rights of the child are maintained at all times

Toilet Training:

Warradale Community Children's Centre accepts enrolments of children who have not yet been toilet trained. Toileting occurs at any time of the day and is specific to individual needs. Educators will communicate with parents/guardians to develop consistency with their child's toileting habits. Educators must be aware of and consider any special requirements related to culture, religion or privacy needs.

Decisions about when to begin toilet training will be made by families or may occur through shared decision making between families and early childhood professionals. This decision is based on mutual respect and open communication, which is crucial for a good outcome. Families may have strong views and preferences about when and how their child learns to use the toilet, which may come from their cultural background or individual preferences which must be respected by Educators and Staff.

The priority of the individual child's wellbeing is paramount, and the decision to begin assisting the child to learn to use the toilet should be based on signs of readiness from the child and discussion with families.

Warradale Community Children's Centre acknowledges the traditional custodians of the land we live on today and we pay our respects to the Aboriginal and Torres Strait Islander People past, present and emerging.

Early signs of readiness will often start to appear when children are around 18-24 months old and may include:

- Showing interest in the toilet, including having an interest in others using the toilet
- Indicating a need to go to the toilet either before, or while they are passing urine or doing a poo.
- Staying dryer for longer
- Begins to dislike wearing a nappy and perhaps tried to pull it off when it's wet or soiled
- Indicating a desire to sit on the toilet.

It is important to keep the process subdued and not place unnecessary attention and pressure on the child to prosper. Acknowledging children's successes, no matter how infrequent or small is vital for their self-esteem and confidence. Families and Educators can expect accidents, which should be treated respectfully and with a supportive manner.

Educators and families will collaborate and communicate how the toilet learning is going, both in care and at home. This will support children to become more familiar and comfortable with the toilet training process. Children should be given the opportunity to complete the toileting procedure, such as toileting, washing hands, flushing the toilet, keeping the bathroom environment clean independently, while at the same time keeping in mind the importance of hygiene and having assistance when required.

During this milestone, children should be empowered and encouraged to be successful. Toilet training varies for individual children, as Educators we can take advantage of the child being in a group and the many opportunities that provides for learning from each other. Educators and Families need to remember that comparing children is inappropriate and unacceptable behaviour.

Evaluation

This policy is viewed as working effectively when both nappy changes and toilet training are positive experiences.

Warradale Community Children's Centre acknowledges the traditional custodians of the land we live on today and we pay our respects to the Aboriginal and Torrens Strait Islander People past, present and emerging.
